The Bolin Centre is a multi-disciplinary consortium of over 350 scientists in Sweden that conducts research and graduate education related to the Earth's climate.

Bolin Centre External Science Advisory Group

The Bolin Centre has appointed a new [external scientific advisory group](#) comprised of leading national and international scientists within climate research. The group's main tasks are to inform the Bolin Centre of its strengths, weaknesses and possibilities for development as well as increase the Bolin Centre's contacts to international networks and research groups within the climate research area. Our current members are:

BOLIN CENTRE IN MEDIA

In Swedish | [Oväntat hot mot Antarktis](#)

Isen på den östra delen av Antarktis har länge betraktats som stabil. Men nyupptäckta rörelser i en av kontinentens stora glaciärer ger en oroande bild.

– Man kan se att farliga saker pågår nu, men det är svårt att bedöma hur farliga de är, säger Per Holmlund, Institutionen för naturgeografi och Bolincentret, i [Svenska Dagbladet](#).
